Important Notice Regarding Your Debit Cards

MasterCard Automatic Updater

Merchants that participate in the MasterCard Automatic – Billing Updater program can now receive updated cardholder information for recurring MasterCard transactions. Information such as your expiration date, card number (if the original card was lost/stolen or compromised) and closed card notification are updated and communicated directly to participating merchants with whom you have recurring payments. This service only applies to recurring MasterCard debit card payments. You may opt out of this feature at any time.

(Effective October 2017).

Opt-Out Debit Card Automatic Updater

_____ I do not want (Tandem) to automatically update card information for recurring MasterCard debit transactions to participating merchants.

EXAMPLE: If you were paying for your gym membership using your debit card (recurring debit). If the card expires/lost the merchant would automatically receive your updated card information.
